(Shareholder Proposal)

Proposal No. 5 Revisions to a Portion of the Articles of Incorporation (Thorough Health and Safety Management)

Proposal No. 5 is proposed by one shareholder. The title, summary and reasons of the proposal are shown as originally submitted by the shareholders.

(1) Summary of the Agenda Item

The following provision shall be added as a new Article in the existing Articles of Incorporation, and current Articles 3 et seq. shall be renumbered correspondingly.

(Thorough Health and Safety Management)

Article 3. Health and safety management shall be conducted thoroughly by each and every officer or director of the Company, so as to prevent the occurrence under any circumstances of an accident regarding health and safety, or of natural disasters or accidents, etc., with “Safety has Priority over All Things” as the basic policy of the Company for health and safety.

The clauses related to this agenda item shall be modified to reflect the formalistic changes required to account for the other agenda items in the shareholders’ meeting (including agenda items related to Company proposals) that are approved.

(2) Reasons for the Proposal

The Company has experienced repeated, major accidents regarding health and safety at its construction locations where the Company is acting as builder in recent years. As a result of these accidents, persons who were working on construction have lost their lives.

According to the Company’s CSR Report and Sustainability Report, the Company has stated that “Reduction of repeated accidents” is one of its measures to promote health and safety management every year. However, considering the serious accidents that have occurred in recent years, the Company has clearly failed to ensure thorough management of health and safety by its officers and employees.

Following the incidents of recent years, the Company publicly announced measures to prevent the recurrence of disasters like these on November 8, 2018. We believe that the fact that the Company’s previous measures on the safety have not led to a fundamental change in the Company’s posture means that we can and should make our officers’ and directors’ health and safety management even more thorough and improve awareness of safety and implementation of preventative measures, as stated in the public announcement, by incorporating this provision into the articles of incorporation of the Company.

Opinion of the Board of Directors of the Company

The Board of Directors **opposes** this proposal.

The Company has stated that “SAFETY FIRST” in its Basic Policy for Safety and Health, and has built and operated labor safety and health management systems in an effort to ensure safety and health management for all personnel engaged on construction work including cooperating companies.

In addition, in response to the fire that occurred last July, the Company has formulated and implemented measures to prevent recurrence such as revising the rules on the use of fire based on suggestions from outside experts, and has also made further efforts to ensure safety management by officers and employees through the actions listed below.

- A strong statement of resolve by top management not to repeat any serious accidents, and instructions to all employees to be certain to implement measures to prevent recurrence, increase safety awareness and ensure safety management
- Clarification of roles and responsibilities after strengthening involvement of head office and branch officers to ensuring appropriate implementation of measure to prevent recurrence and ensuring safety rules take hold
- Creation of a new manual summarizing all rules on safety management in one book to spread safety culture, and utilization of this in safety education

The Articles of Incorporation stipulate basic matters concerning the Company’s organization, etc., and it is our belief that stipulating a code of conduct, policies, etc. on the execution of business is not compatible with the nature of the Articles of Incorporation.

Furthermore, this proposal is for the Articles of Incorporation to stipulate only part of the code of conduct, policies, etc. on the execution of business that exist elsewhere, and we believe it is also inappropriate from this perspective. However, we are already ensuring safety and health management in ways other than amendment of the Articles of Incorporation as stated above.

Therefore, it is the Company’s view that it is not necessary to establish provisions such as those shown in this proposal in the Articles of Incorporation.
